PROFILE

Dynamic Frontend Developer Intern with a Bachelor of Information Technology from Nong Lam University. I possess a keen analytical mindset and a collaborative approach, adept at mastering new technologies while fostering positive team dynamics. Committed to leveraging academic foundations and technical aptitude in a professional environment, I bring calm reliability and clear, respectful communication to development projects. Proficient in using Git to manage project versions and publish websites to GitHub, as well as Microsoft Excel and PPT. Eager to contribute fresh perspectives and develop practical expertise through hands-on experience and mentorship. Equipped with a growth-oriented mindset and genuine enthusiasm for creating impactful solutions through technology.
